The CAVALIER

1967

Presented by

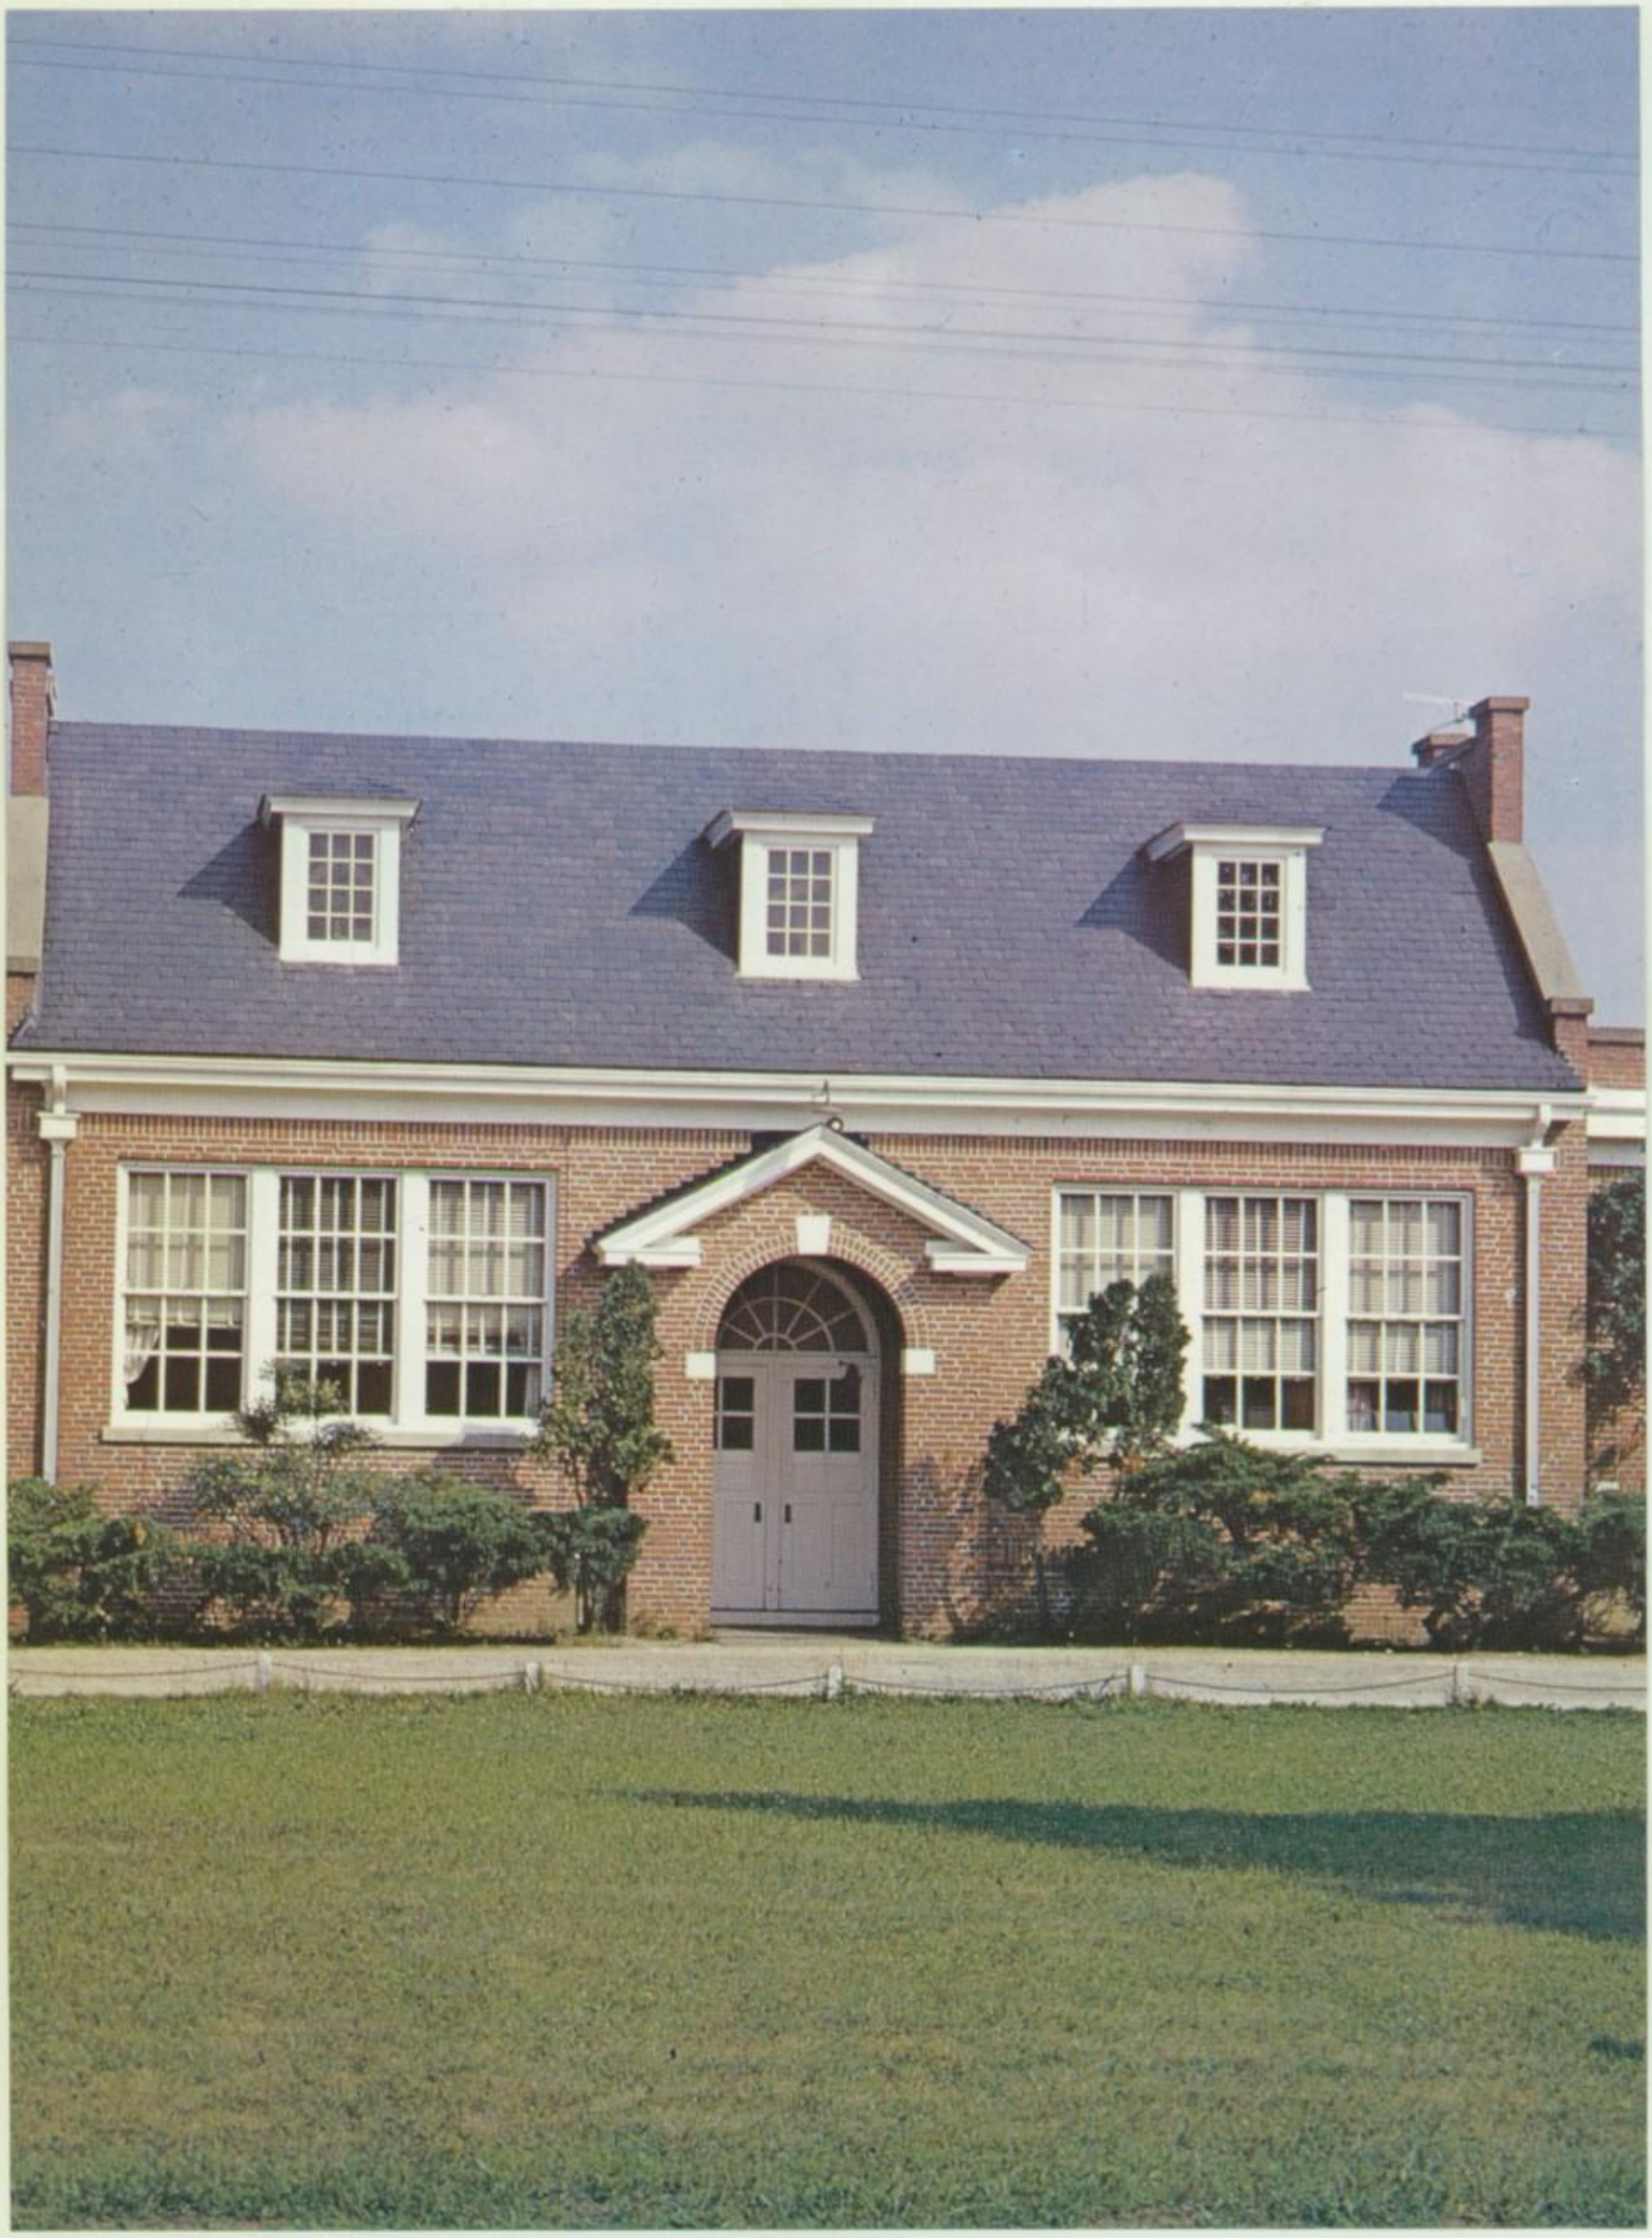
the

Annual Staff

of

New Kent High School

New Kent, Virginia



We, the Senior Class of 1967, find ourselves approaching graduation and termination of twelve years at New Kent High School. The experiences, the learning, and the friends will soon be memories alive only on the pages of our CAVALIER. Within these pages we have tried to collect memories of those persons and activities, through pictures and words, which will help us recall in years to come those things which were so pleasant and vital during our high school days.

I would like to thank the Annual Staff and the Senior Class for their help and contributions to this yearbook. I would like to give my special thanks to Mrs. Roberts, for her time, assistance, and patience. Without her to advise us this yearbook would have been impossible to compile.

Foreword

Dedication

In sincere appreciation and gratitude we dedicate this annual, the 1967 CAVALIER, to Mr. John E. Averett.

For your inspiration in giving New Kent an opportunity to increase its knowledge and appreciation for mathematics, science, and sports; for the unceasing support you have given us when our courage failed; for your outstanding capabilities in coaching and your ever present sense of humor; we feel we have been fortunate to have had the privilege of having you as our teacher, coach, and friend.

We certainly express our appreciation.

In Memoriam

Betty Jean Chenault

As we remember the many activities and friends of our school days at New Kent High School, we also pause to remember one who, although she is no longer with us, will not be forgotten.

"The Lord shall preserve thee from all evil:
He shall preserve thy soul.
The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore."

Psalm 121: 7-8

In Appreciation

MRS. CHARLES N. ROBERTS

The annual staff of the 1967 CAVALIER is extremely grateful for her encouragement and enthusiasm at the times when our zeal was gone. She has helped to make our work enjoyable, and we trust that this volume will be as much a source of pride to her as it is to us.

The night has a thousand eyes,
And the day but one;
Yet the light of the bright world dies
With the dying sun.

The mind has a thousand eyes,
And the heart but one;
Yet the light of a whole life dies
When love is done.

Francis William Bourdillon

As teachers we think of, among our other important duties in school, those of assisting our young people to become enriched in knowledge and trained in skills which are to be their guiding points throughout life.

When the school years have passed and the students have shared certain learning experiences and abilities with their teachers and have complied with other requirements, they depart with a document indicating the staisfactory completion of a number of years and of certain subjects.

This is, by far, not enough—for aside from these achievements there is another kind of learning which is of greater virtue than all others—the love and appreciation for continued learning of the many riches which are necessary for a full and happy life.

Among these is the love for the beauty of the wonders and mysteries of nature around us, the love for the beauty of the sound of music, the pictures of color, the understanding of the great thoughts in literature; and still more important than these values is the love for those around us, expressed by kindness, friendship, understanding and respect.

The values of love are the basic foundation in our learning and should be manifold in daily action by the dedicated teacher and the understanding student.

Ambition gives direction to our lives. As we leave these halls we, the Class of 1967, pause to give our best wishes and thanks to our friends and teachers. To New Kent High School and its traditions we fondly say goodby.

ATHLETICS

School spirit, determination and enthusiasm have colored our lives at New Kent with deep, rich hues of the blue and white. Good sportsmanship has made us better school citizens and has made our school itself a better place. Most important, however, we have learned to win with pride and to lose with a smile.

ELECTRICITY: MUSCLE OF INDUSTRY

Behind the great industrial might of America stands a "giant workman" — electric energy. It would require the muscle energy of **70 men** working **40 hours a week** for **one whole year** to equal 10,000 kilowatt hours of electricity — less than the average annual consumption of two Vepco residential customers. Yes, electricity is the "muscle" behind our power and prosperity.

Today there are more than 100,000 different uses for paper . . . and the search for new uses never ends. That is why this fast-growing industry is now among the ten largest in the country . . . and why it needs engineers, researchers and technicians for future growth. Our company, a pioneer kraft paper manufacturer, offers college scholarships for study in electronics and in pulp and paper technology. It offers jobs for skilled college graduates in many other fields. For information, write Personnel Department—
